

Gaia's Organic Gardens

CHANGING THE WORLD, ONE
BACKYARD AT A TIME

EXPERIENCE YOUR OWN PRODUCTIVE, SUSTAINABLE GARDEN

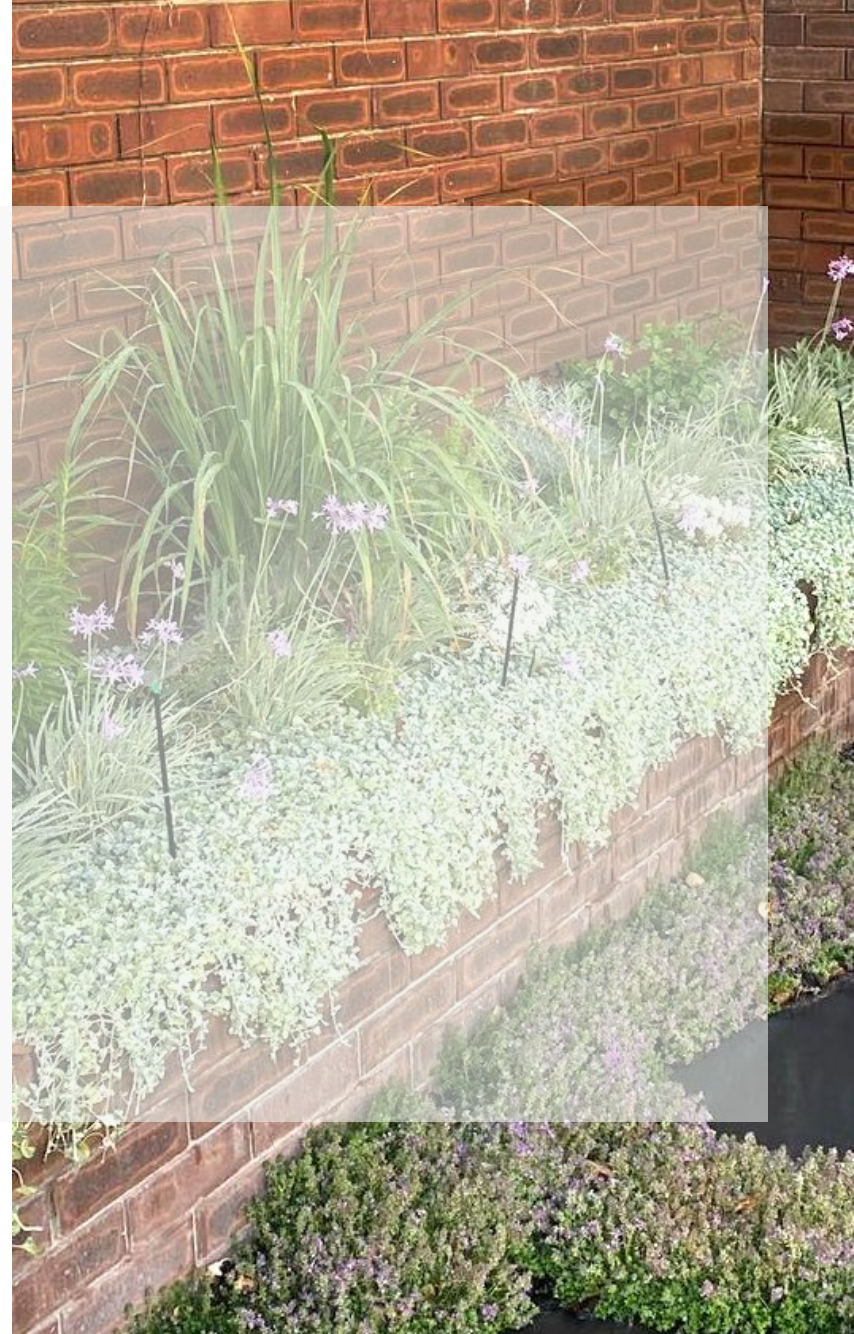

Our experienced and qualified team of gardeners have helped hundreds of Perth households and businesses to design, install, and grow their own vegetable gardens from scratch. From our garden consultation services to our range of educational workshops, we are passionate about teaching our community how to lead healthier and more sustainable lifestyles through our bespoke holistic gardens.

WHY WORK WITH US?

Working with us will help you have a culturally inclusive & sustainable garden on your estate.

- Encourage healthier families
- Improves property aesthetics
- Maintain & supports ecological balance
- Improves sell ability

COACHING & MENTORING

Want to learn how to become a better gardener at home? Get private coaching from the experts!

ORGANIC VEGETABLE GARDENS

We can help you design and install a vegetable Garden that fits into any lifestyle, environment, or living space.

A vintage red tractor with large spoked wheels is positioned in a garden bed. The bed is filled with reddish-brown wood chips and various green plants, including tall grasses and smaller shrubs. In the background, there is a dark grey wall and a white building with a window. The tractor is the central focus, with its red paint contrasting against the natural tones of the garden.

ABOUT US

Edible Organic Garden Design, Installation and Maintenance

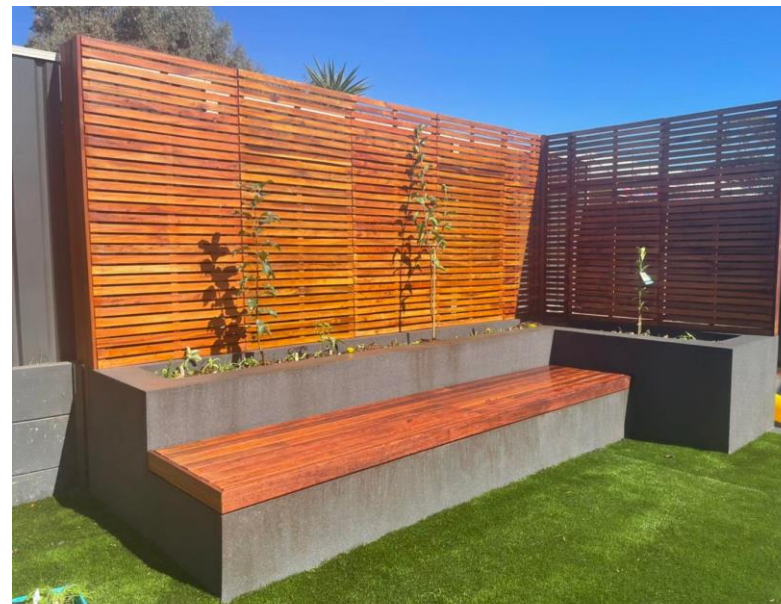

Gaia's Organic Gardens is a Perth family-owned and operated business that is dedicated to helping more Aussie families get more out of their outdoor spaces by using sustainable and organic gardening practices.

VEGETABLE GARDENS

We supply and install organic vegetable gardens

Our team can supply and install a variety of garden beds suited to your needs including zincalume and colorbond raised beds as well as brick, timber, vertical or wicking bed veggie patches.

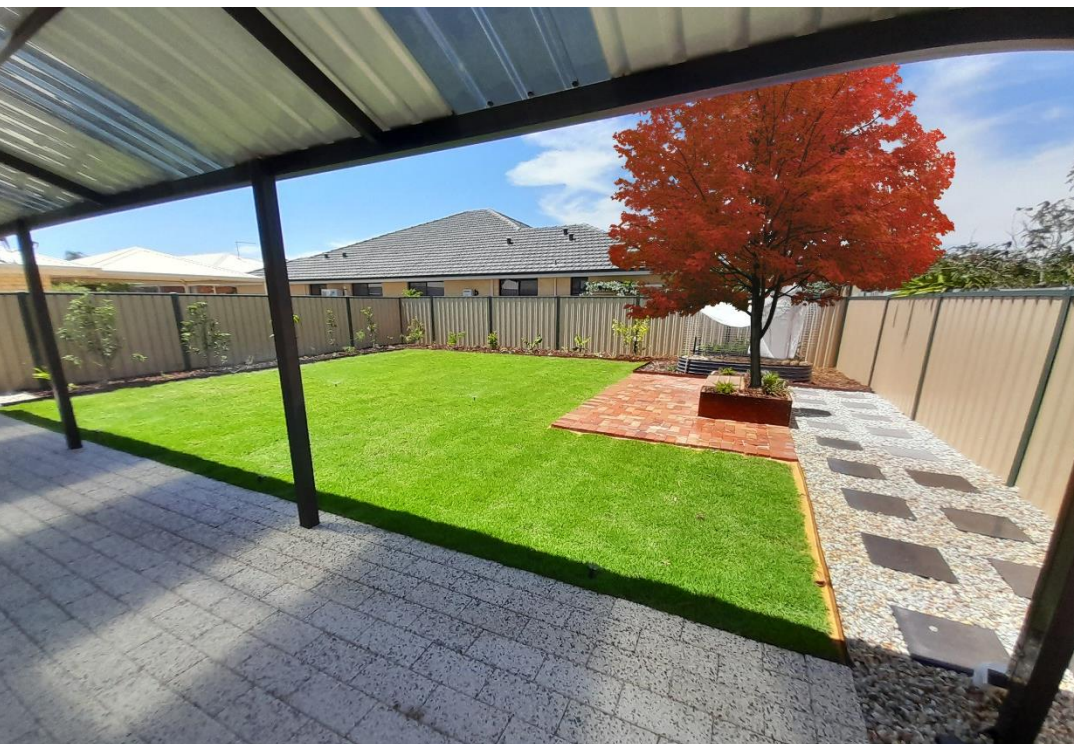

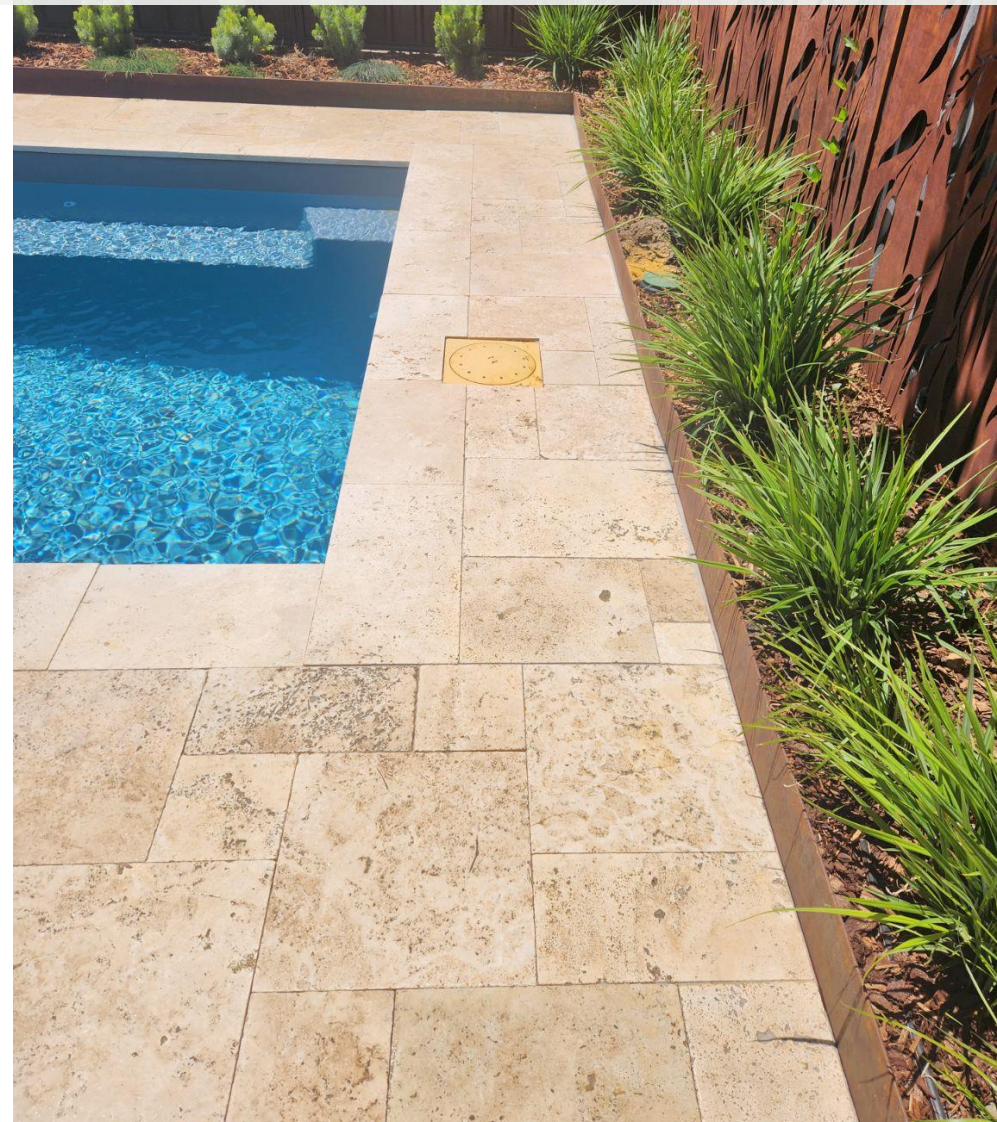

We can even maintain your new garden for you, so all you have to do is sit back & enjoy the harvest!

If you'd like to be involved in the garden design process, we can work together to achieve your vision.

Alternatively, you can leave it up to us to design and implement a whole new garden for you.
